ART DIVISION

EXODUS 31:3-4

SPONSORED BY THE CHURCH OF GOD
INTERNATIONAL YOUTH AND DISCIPLESHIP DEPARTMENT

CATEGORIES

Ceramics and Glass

Drawing

Graphics

Mixed Media

Oil/Acrylic Painting

Raw Photography

Sculpture

Textiles- Woven

Textiles- Knitted/Crocheted

Textiles- Non-Woven/Surface Design

Wet Media Painting

PART ONE

Participation Requirements

- Entries must be the participant's original work, created since the last International Competition. Only advice or instruction may be received. Reproductions, crafts, kits, models, or work from patterns are not permitted.
- Participants are responsible for delivering their entries and assume all liability for damage during transport. Teen Talent personnel will not accept shipments.
- Each entry must include the Teen Talent Art Project Information Sheet attached to the back or display, with a paper copy submitted at Art Check-In.
- Entries may feature religious or secular subjects but must reflect Christian principles. Content deemed inappropriate by judges will be disqualified.
- Contestants are responsible for selecting the correct category. Adjudicators and directors have final authority on category placement. No category changes will be made at the International level. Entries will be judged according to the category in which they are entered by the State/Regional/National Director.
- Participants may submit one entry per category but may enter multiple categories.

[SPECIAL NOTE]

Flat artwork should be framed, and hanging fixtures affixed for the International Competition.

Artwork will be displayed "Gallery Style" with Art Project Information sheet attached to the back.

PART TWO

Description of Categories

Ceramics and Glass

- Eligible works include handmade functional or decorative pieces (e.g., bowls, vases, glasswork) created using slab, coil, slip cast, press mold, sand cast, wheel thrown, or a combination of these processes.
- Slip cast entries must use molds made by the participant; commercial molds are not permitted.
- Glass entries must be hand-blown or hand-formed.
- On the Teen Talent Art Project Information Sheet, participants must indicate the processes used, glaze applied, and the firing cone/temperature for ceramic pieces.

Drawing

- Eligible media include pencil, pastel, crayon, oil pastel, conté crayon, charcoal, pen, brush, ink, or any combination of these.
- The medium used must be indicated on the Teen Talent Art Project Information Sheet.

Graphics

- Eligible works are reproducible images created by hand using etching, engraving, woodcut, linocut, silkscreen, lithograph, monoprint, or similar processes (including combinations).
- The process(es) used must be indicated on the Teen Talent Art Project Information Sheet.

Mixed Media

- Eligible works are framed two-dimensional pieces that use two or more distinct mediums on a relatively flat surface to create a single artwork (e.g., drawing with markers, painted with watercolor, and highlighted with acrylics).
- Each medium used must be described on the Teen Talent Art Project Information Sheet.

Oil/Acrylic Painting

- Eligible media include oil-based, synthetic-based (acrylic, polymer), egg tempera, or any combination of these.
- The medium used must be indicated on the Teen Talent Art Project Information Sheet.

Raw Photography

- Entries must be a single photo taken with a DSLR (digital) or SLR (film) camera. Cell phone photography is not permitted.
- The photo must be printed at a minimum size of 8" x 10", matted, and framed.
- Entries containing multiple photos will be judged on only one image or may be disqualified at the judges' discretion.
- Processing may be done in-camera using settings (e.g., F-stop, film speed, shutter speed) or with physical filters (rigid/gel) on the lens.
- Software editing is not allowed.

Sculpture

- Eligible works include non-functional three-dimensional or relief objects made from metal, wood, papier-mâché, plaster, stone, plastic, ceramic, glass, or a combination of suitable materials.
- The Teen Talent Art Project Information Sheet must include details about the medium(s) used in the piece.

Textiles

- **Eligible works include:**
 - **Woven: tapestry, jacquard, ikat, plain weave, etc.**
 - **Knitted / Crocheted: hand or machine.**
 - **Non-woven / Surface Design: felting, embroidery, quilting, appliqué, printing, dyeing, batik, etc.**
- Patterns or designs must be the participant's original work and not copies of commercial or existing patterns.
- The Teen Talent Art Project Information Sheet must explain how the pattern was created.

Wet Media Painting

- Eligible media include transparent watercolor, opaque watercolor (gouache), water-based tempera, or any combination of these.
- The medium used must be indicated on the Teen Talent Art Project Information Sheet.

[SPECIAL NOTE]

Crafts and Mechanical Drawings are NOT Allowed

Crafts and craft projects, as well as building/floor plans, blueprints, and other mechanical drawings made by hand or with computer programs, will not be accepted for entry.

While crafts and mechanical designs do require creative abilities, the mechanical nature of these pieces does not meet the creative criteria and principles of the Teen Talent Creative Art philosophy.

PART THREE

Glossary of Terms

- **Composition:** The total arrangement or design of a work of art. How the visual elements such as line, shape, color, and texture are put together.
- **Harmony:** An orderly or pleasing arrangement of parts; the various parts of the composition go well together.
- **Intrinsic:** Belonging to a thing by its very nature. The grain and color of a piece of wood are an intrinsic part of its character.
- **Proportion:** A proper visual relation between parts to create a unified whole.
- **Repetition:** The reoccurrence of the same color, shape, idea, theme, etc. in a work of art
- **Rhythm:** Visual arrangement with regular repetition of colors, forms, etc.
- **Unity:** A quality of oneness; various parts create a single idea or statement.
- **Coil:** Ropes of clay coiled, shaped, and joined together.
- **Hand-Blown Glass:** A glass object formed by blowing through a long metal tube to which molten glass is attached.
- **Hand-Formed Glass:** The process of fusing pieces of glass together using a heat source such as a torch, kiln, or other bonding processes or agents.
- **Press Mold:** A ceramic piece is formed by pressing wet clay into a pre-made mold so that several identical pieces can be made.
- **Sand Cast:** A type of mold where moist sand is carved out to create a reverse image which is then filled with clay slip.
- **Slab:** Flat pieces of clay used to create a ceramic object by joining several slabs together.
- **Slip Cast:** A ceramic process where a piece is created by pouring liquid clay (slip) into a preformed mold. Several identical pieces can be made by this process.
- **Wheel Thrown:** The process of forming pliable clay on a potter's wheel.
- **Engraving:** The process of incising a design in hard material, often a metal (usually copper). Also, the print of an impression made from such a plate.
- **Etching:** A kind of engraving in which the design is drawn on a layer of wax or varnish on a copper plate. The parts of the plate left exposed are then etched or eaten away by acid in which the plate is immersed. After cleaning, the plate is inked and printed as a normal engraving. (Also, a print made from such a plate.)
- **Intaglio:** Any print-making process where the design is incised into the plate, including engraving and etching. Often it is a combination of several techniques on the same plate. (Also, any print made from such a plate).
- **Linocut (Linoleum Print):** A type of relief print where linoleum is used as the plate into which a design is carved.
- **Lithograph:** The process of making a print on a specially prepared stone or metal plate by drawing with a grease crayon. The plate is then desensitized, moistened, and then inked so that only the drawn areas absorb ink. It is then printed under pressure. This permits a subtle range of linear and tonal values.
- **Mono Print:** A print or impression created from a design on a surface that is transferred by pressure to a piece of paper. The image on the original surface is destroyed in the printing process. For example, applying oil paint to a metal plate and running it through a printing press to transfer the paint to the piece of paper. Only one print is achieved by this process.

PART THREE

Glossary of Terms

- **Print:** A term used to designate the paper holding the image that is transferred from an inked plate. For example, a relief print or intaglio print.
- **Relief Print:** A printing process whereby the unwanted areas of a plate (usually wood or linoleum) are carved away leaving a raised surface which is inked and printed. (Also, any image printed by this process.)
- **Silkscreen (Serigraph):** A print that is created affixing a stencil to a piece of stretched silk or synthetic silk through which ink is forced by a squeegee onto paper under the screen.
- **Typography:** The arrangement, appearance, design and/or style of printed fonts.
- **Woodcut:** A type of relief print where a flat piece of wood is used as a plate.
- **Acrylic:** A type of opaque paint with a similar consistency of oil paint but which can be thinned with water.
- **Egg Tempera:** A permanent, opaque paint consisting of a mixture of pigment, egg yolk, and water.
- **Polymer:** A name often used for synthetic-based paints. (See also Acrylic.)
- **Tempera:** An opaque, water-based paint commonly referred to as poster paint. Colors are not waterproof as they are with egg tempera.
- **Gouache (Opaque Watercolor):** Watercolor rendered opaque by the addition of a filler such as zinc white. It has more body and dries more slowly than transparent watercolor and lends itself to bright color and meticulous detail.
- **Transparent Watercolor:** A finely ground pigment suspended in a medium that renders it transparent.
- **Montage:** A composition created by fitting together pictures or pieces of pictures.
- **Multi-Exposure:** Making more than one exposure on one frame.
- **Photomechanical:** A photograph processed to eliminate middle tones of gray so that only white and dense blacks are shown.
- **Solarization:** Over-exposing a photographic film to create a special effect.
- **Free-Form Sculpture:** A term used to distinguish a work from a functional object made from the same material. For example: Distinguishing between a ceramic bowl and a piece of ceramic sculpture where the design is an end in itself.
- **Relief Sculpture:** In sculpture, figures projecting from a background of which they are a part. The degrees of relief are designated as high, low (or bas), or sunken (hollow).
- **Non-functional:** Not serving any utilitarian purpose, no usefulness or function beyond the aesthetic artistic quality.
- **Appliqué:** A design or pattern created in needlework made by cutting pieces of one material and applying them to the surface of another.
- **Batik:** A fabric design created by drawing with hot wax, dyeing the fabric, and then ironing out the wax which has not received the dye. By repeating the process, a number of colors can be obtained.
- **Macramé:** Coarse lacework made by weaving and knotting cords into a pattern.
- **Needlepoint:** Decorative needlework on canvas or heavy fabric in a diagonal stitch covering the entire surface of the material.

PART THREE

Glossary of Terms

- **Stitchery**: A pattern or design on cloth created with stitches of needle and thread.
- **Tie-Dye**: A design on fabric made by tying parts of the fabric so they will not absorb the dye, giving the fabric a streaked or mottled look.
- **Weaving**: A cloth design created by interlacing threads or yarns of the wool and the warp on a loom.
- **Collage**: A composition made by pasting together on a flat surface various materials such as newspaper, wallpaper, illustrations, photographs and cloth, as well as paint.

I have filled him with the Spirit of **God**, with wisdom, with understanding, with knowledge and with all kinds of skills
—to make *artistic* designs . . .

—Exodus 31:3-4

TEEN TALENT ART DIVISION

project information sheet

Name _____

Category _____ Date _____

Local Church & State/Region _____

Age & School Grade _____

PLEASE COMPLETE & BRING TWO COPIES WITH YOU TO COMPETITION:

Creativity. What motivated or inspired you to create your Teen Talent Art entry, and is it your own idea?

Composition. How were the principles of art used in creating your art entry?

Medium/Material. Explain how you used the medium/material to create your art entry.

Technique. Describe any special effects you employed to create your work of art.
